

Route 24 Donald

Route 24 is a core route connecting Eugene Station to South Eugene via Willamette Street and Donald Street with a terminal loop via E. 46th Avenue and Fox Hollow Road.

Detailed Recommendations

Coverage (where it goes)

In the Short-Term improve route directness and speed of Route 24 by removing two deviations.

- The 34th/Pearl deviation adds a minute of travel time and has two stops within 100 yards of Donald Street that serves approximately 6 riders.
- Route 24 deviates to Oak Street in the inbound direction to Eugene Station at 20th Ave. Historically, this was the most direct path, but Willamette Street is no longer a southbound one-way street. Route 24 should stay on Willamette Street inbound Street between 17th Ave and 11th Ave to improve route speeds.

Recommendation Summary

- Short-Term: Remove two minor deviations to improve route directness and speed.
- Long-Term: Improve weekday frequency to 15 minutes during peak periods.

Frequency (how often it runs)

Route 24's weekday late morning frequency was reduced from 30-minutes to 60-minutes. As more operators become available, frequency should be increased to every 30-minutes.

In the Long-Term, Route 24 frequency should be improved to every 15-minute service on weekdays peaks.

Hours of service (when it runs)

No changes are recommended.
